FROM: James Timothy Turner, President  
Republic for the United States of America

Dear General,

I am writing this letter in request for assistance to the new and lawfully formed Republic for the United States of America. On March 30, 2010 we the People served notice upon the governors of all 50 of the corporate states that we wanted to return to a lawful Republican form of government as is guaranteed by our constitution. The governors ignored our requests and failed to give us lawful remedy as is required by law. The law provides that when lawful remedy is requested and ignored the parties have the right to create their own remedy. The remedy chosen by We the People was to lawfully re-inhabit the vacant offices of the original de-jure republican form of government as required by our national constitution. We discovered that congress had not repealed or abolished the original Republican form of government as is guaranteed by our constitution. We discovered that congress cannot lawfully abolish the Republican form of government without the consent of We the People of America. They never asked for consent to change our form of government to a democracy. Every action that has been taken against the American People by the UNITED STATES municipal corporation since 1871 has been unlawful. It is legal only because the People failed to say no. Consent is necessary for the legal system to work. On March 30<sup>th</sup> 2010 We the People said no more corporate governance. It is far past time to re-integrate the republican form of constitutional government into American society.

The purpose of this letter is to ask for your help and support for world national and world recognition as well as military and monetary support for the Republic. The enclosed book will give you some insight to the work we have done over the past few years. This book has been delivered to the Hague and Universal Postal Union for world recognition. America is in real trouble but we have the solution that will stabilize the political and financial problems and restore our nation to its proper place among the nations. Washington has lost its ability to govern our nation and best solution is to restore the Republic. I hope we can depend upon you for help. God Bless America.

  
James Timothy Turner, President
